Aunetic Mobile

AUNETIC
GUIDING GOVERNANCE

# Aunetic Mobile Audit – everything else was yesterday!

Performing audits just got easier, faster, and more efficient with Aunetic Mobile Audit!

Our cutting-edge app is revolutionizing the auditing process. Empowering you to conduct audits on the go using your smartphone: Our app is tailor-made to streamline audits for use cases where audits are performed in batch for high numbers of entities/ branches including retail, food chains, automotive workshops, facility management, franchises, and more.

AUNETIC
GUIDING GOVERNANCE

Therefore, we designed our **Mobile Audit solution**
as state-of-the-art app to drive a high level of standardization and at the same time being very easy to use by auditors and end users who can enter their findings and measures directly into the app.

That relates to standard mobile enhanced questionnaires with free configurable single or multiple-choice questions, references to article databases and use cases around self-assessment, mystery shopping, workshop audits and more.

» Automated assignment of question catalogs with comprehensive check-lists logics for answering questions.

» Assign articles via EAN and QR codes.

» Working offline with the mobile exam execution in environments with poor internet connection.

» Take, edit, anonymize and precisely assign photos with your smartphone camera or scan documents to the object concerned.

» Automatic transfer of measures to the follow-up.

» Mobile app for iPhone, Android, Windows, ...

Optimize your entire audit lifecycle with Aunetic Audit, our highly scalable platform with individual workflows and full control over your data. Manage and organize your audit campaigns easily from planning and risk assessment to reporting and follow up. Create and distribute the audit report automatically.
